# Corian®

NEW LOOKS, COMBINED WITH THE POWERFUL QUALITIES OF CORIAN® SOLID SURFACE, HAVE BEEN CREATED FOR DAZZLING OPTIONS. CARRARA, ARTISTA AND SPARKLING GRANITA TAKE DESIGN IN UNIQUE NEW DIRECTIONS, ENCOMPASSING HIGH PERFORMANCE AND HIGH-LEVEL BEAUTY.

Inspired by nature's most revered stone, the Carrara collection offers classic, contemporary style. Two veined options, cool gray CARRARA LINO and warm beige CARRARA CREMA, embody modern relevance whether enhancing a residence or commercial setting. With the intrinsic features of Corian® Solid Surface built in they appear regal and elegant in a kitchen or bath, or powerful and strong in wellness or retail spaces.

The Artista range presents subtle, neutral colors and then adds energy with pronounced veins coursing through the surface. Specially created designs in ivory ARTISTA CANVAS, cool ARTISTA GRAY, warm ARTISTA BEIGE, and sultry ARTISTA DUST are designed to excel in any space. Easy to maintain and hygienic, while hiding life's little everyday mishaps, the range is neutral enough to stand as a background, and stylish enough to each make individual style statements.

Effervescent crispness is integral in SPARKLING GRANITA as it dances with translucent and sparkling particles. The refreshing concept for simple white is perfect for healthcare, retail and food service and it also adds an upbeat note to residential design.

Whether classically inspired, crafting complex designs, or adding fizzy freshness to simple white, the new colors of Corian® Solid Surface are created with an eye for style and ongoing function, and above all to make the Everyday Extraordinary!

A counter unit and backsplash in Corian® Solid Surface (Artista Gray color) features in a treatment room of a specialty health clinic.

## STONECREST SMOKE

This marble- and stone-inspired aesthetic is bursting with deep and light grays in a cool white background. It symbolizes the intensity of both land and sea, exuding nature at its most daring.

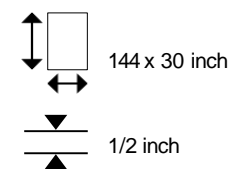

The sample shown is true to scale.

Corian® Solid Surface Stonecrest Smoke (counter),  
Corian® Solid Surface Deep Nocturne (routed feature  
wall and columns)

## ARTISTA MIST

As though appearing from a soothing vapor, cloudlike white veins and particles complement a neutral blue-gray background to envelop any space with a sense of ease and calm.

The sample shown is true to scale.

Corian® Solid Surface Artista Mist (bathroom vanity, integrated sinks, and walls)

# CORIAN<sup>®</sup> SOLID SURFACE

INTRODUCING FIFTEEN NEW CORIAN<sup>®</sup> SOLID SURFACE AESTHETICS RANGING FROM THE CHIC SIMPLICITY OF SOLID COLORS TO THE MULTI-FACETED ASPECTS OF TRANSLUCENCE.

**AGGREGATE:** Aggregate expresses the evolution of industrial aesthetics with four colors and a look that can transition between design styles and applications. Created specifically to coordinate with the Corian<sup>®</sup> Concrete aesthetic, the unique designs add visual texture and movement, and enhanced options with their subtle looks. Channeling a modern, yet timeless composition, the four hues, quiet Neutral Aggregate, light gray Ash Aggregate, toned taupe Weathered Aggregate, and near-black Carbon Aggregate, are named in collaboration with Corian@Concrete.

**TERRAZZO:** Inspired by midcentury modern design aesthetics, the Terrazzo collection combines classic backgrounds with angular elements of white, gray, and black. Domino Terrazzo teases the eye as its white background dances with dark particles. Pebble Terrazzo creates a subdued look as its gray ground is embedded with low contrast particles. Basalt Terrazzo is dramatic with its black base and light, contrasting chips. The effect is dimensional, stylish and infinitely applicable for interior spaces.

**LINEAR:** The Linear aesthetic unites sharp, modern and chic qualities into the two new colors of Silver Linear and Sepia Linear. Variegated lines of color streak through a white background and define the new parallel veining in variations of either grays or browns. Vertical or horizontal applications benefit from the strong presence of the design, which can create uninterrupted lines or be staggered to create a stunning staccato effect.

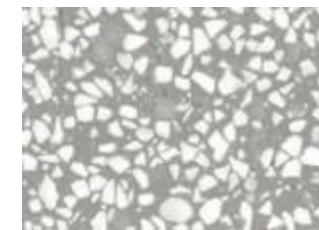

**NUWOOD:** Classic, familiar, natural and now completely new, Nuwood is inspired by one of nature's most beautiful materials: wood. But the beauty extends beyond the initial design to the possibilities you can imagine. Bend it, shape it, carve it, your creativity is boundless with the design options of this new Corian<sup>®</sup> Solid Surface. From the richness of Mahogany Nuwood to the sunwashed look of Beech Nuwood, the innovative and inspired Nuwood aesthetic establishes an entirely new way to create with the classic look of wood.

**ONYX:** The new additions to the Onyx aesthetic take a bold and colorful leap. They embrace the natural world with the new Jade Onyx and Golden Onyx. The swirling variations of the green or gold colors create depth and energy that is beautiful to behold. Beyond the stunning surface lies another layer of beauty: translucence. Corian<sup>®</sup> Onyx can be illuminated to create a glow that further enhances the aesthetic's allure. Illuminated from above, or from below, Corian<sup>®</sup> Onyx creates a multi-layered aesthetic for spaces that are classic or contemporary, and is now as colorful as it is unique.

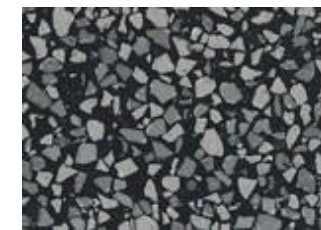

**SOLID:** Color, pure and simple, makes a trend statement of carefree nature. Corian<sup>®</sup> Design's new solid colors, Verdant and Laguna, are integral to contemporary living. Verdant is a rich green and slightly toned to ease its harmonizing with muted hues. Laguna celebrates a new direction for blue, clean and simple, and reminiscent of a day spent by sparkling water. These new hues are desirable for residential and commercial applications capturing the spirit of color direction on an international scale.

DOMINO TERRAZZO

PEBBLE TERRAZZO

BASALT TERRAZZO

## EXCAVAGE

Geologic in inspiration, various-sized particles of charcoal, warm gray, and warm white are scattered within the light gray background to create a look that is natural in appeal and visually enticing.

The sample shown is true to scale.

Corian® Solid Surface Excavage (table)

 These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

## STONIQUE

A classic white background supports warm-hued and subtly translucent particles for an aesthetic that is similar to stone glistening in the light.

The sample shown is true to scale.

Corian® Solid Surface Stonique (walls and table)

 These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

## PEBBLE LANE

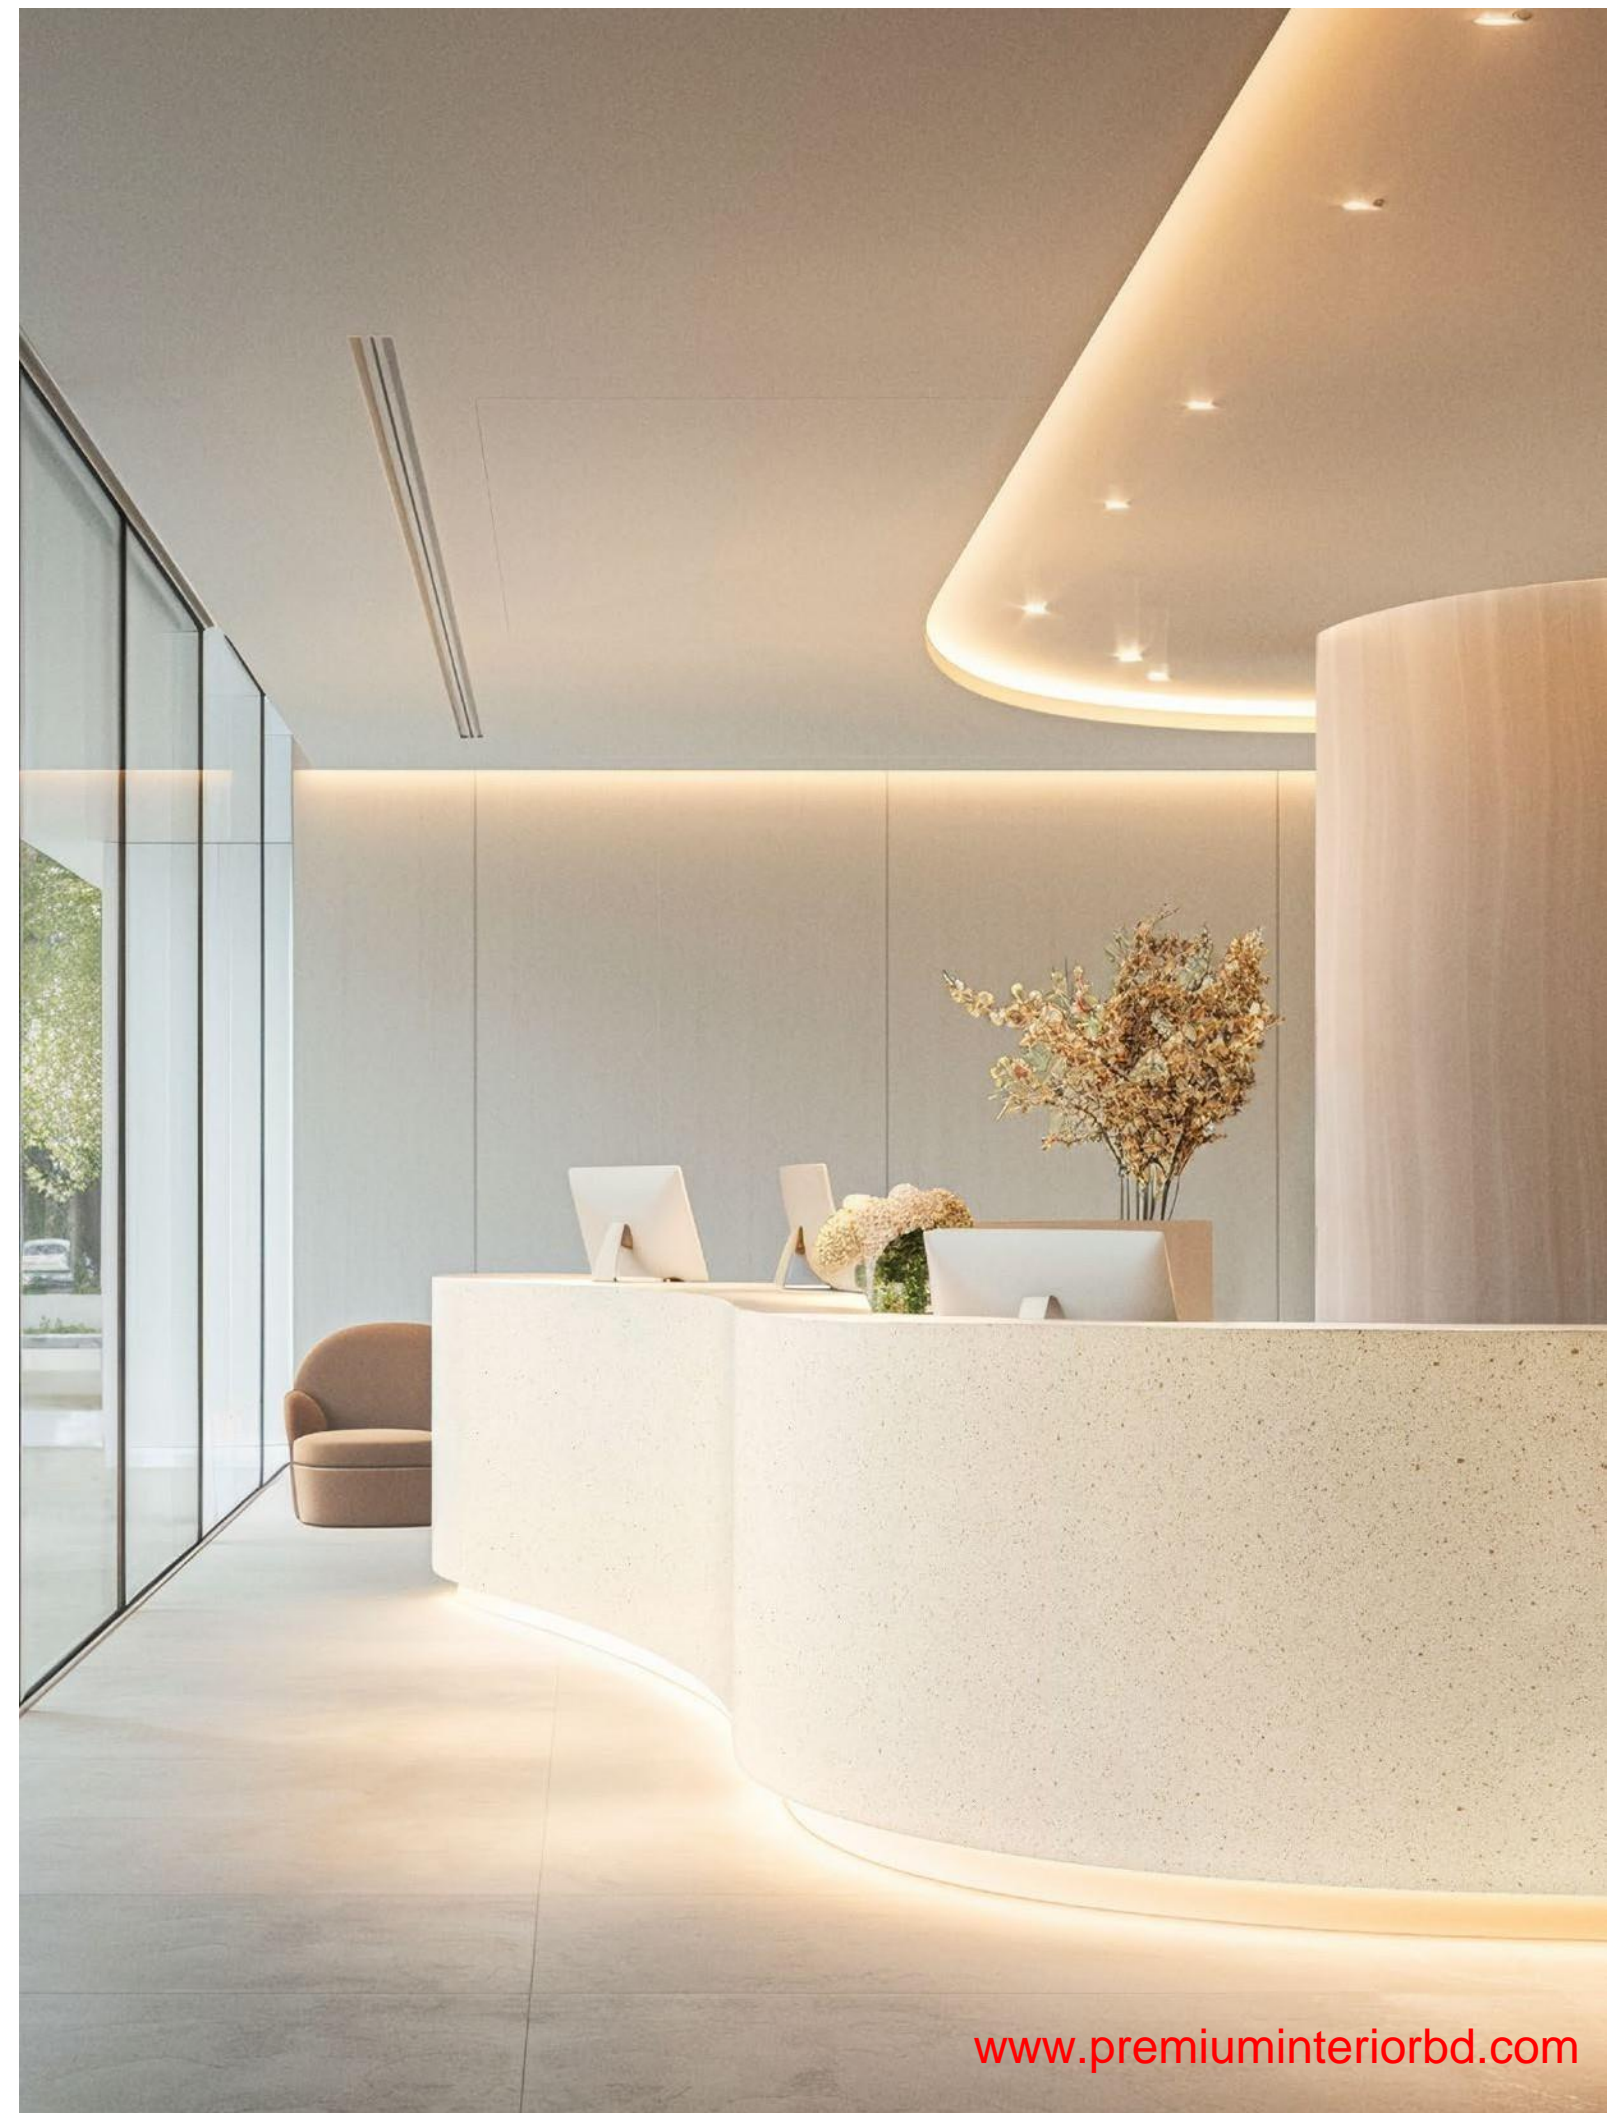

Muted and warm, a tan background with subtle particulates suggests a stroll along a country path.

The sample shown is true to scale.

Corian® Solid Surface Pebble Lane (countertop) and  
Corian Solid Surface Bleached Nuwood (column)

 These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

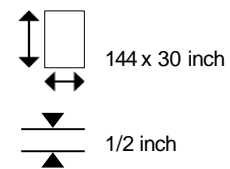

## ARCHEOLOGIC

Light and medium neutral-colored particles suggest a moment of discovery. As when sifting through the earth, the colors emerge from the beige background for an effect that is both intriguing and calming.

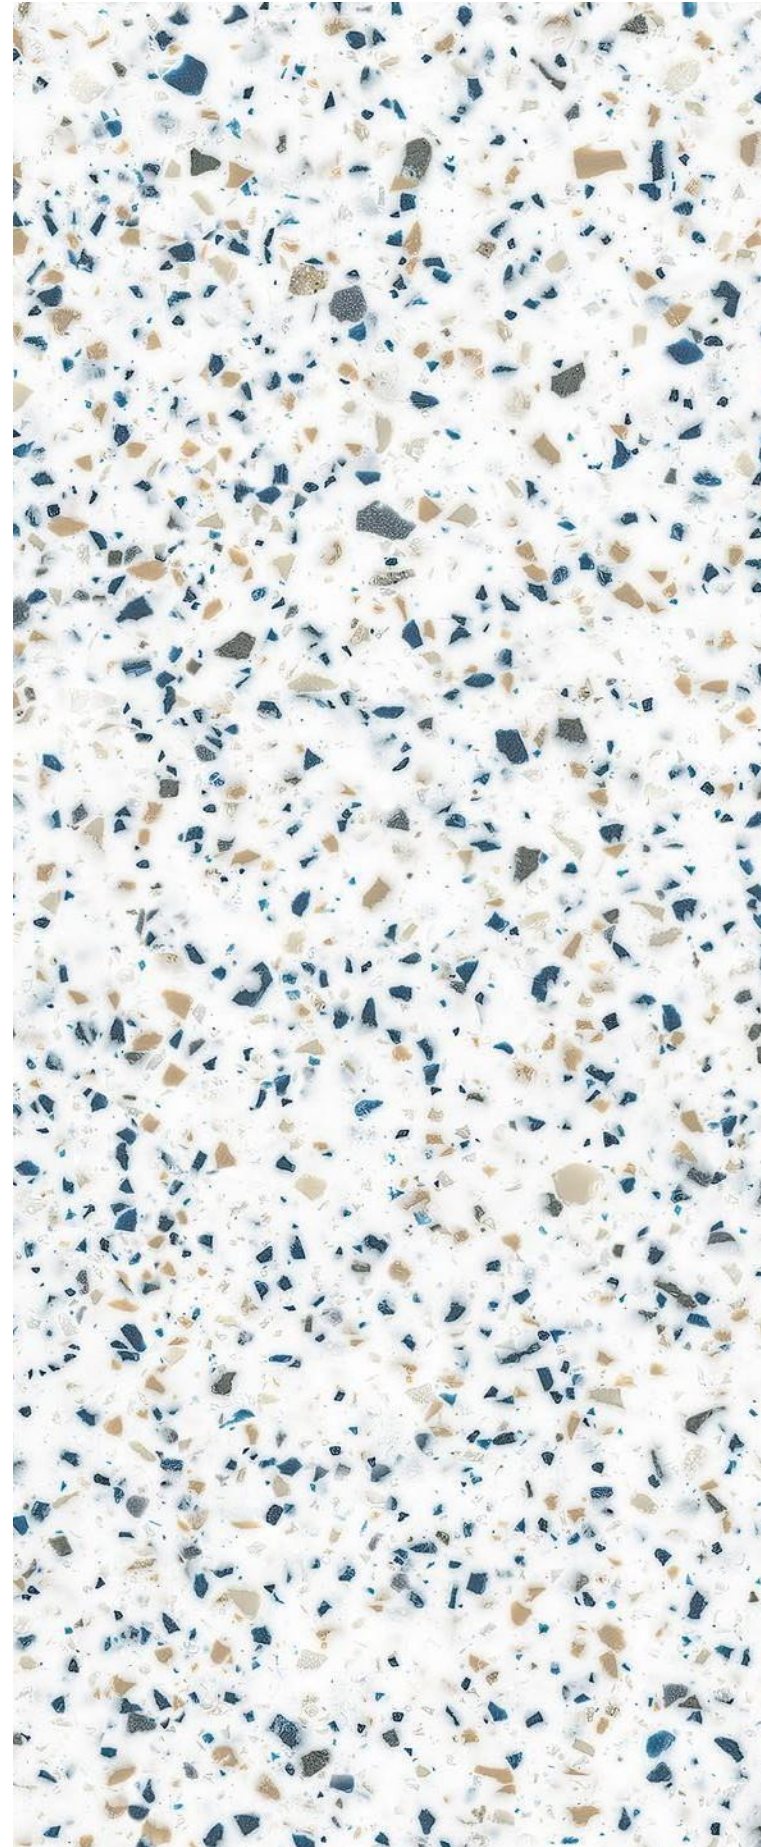

The sample shown is true to scale.

Corian® Solid Surface Archeologic (desk)

 These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

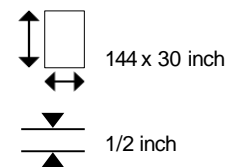

## LAGUNA

Cool and modern, Laguna Terrazzo comes alive with warm blue particles in a light-colored background for a contemporary vibe. Designed as both a standalone color and to coordinate beautifully with Corian® Solid Surface Laguna.

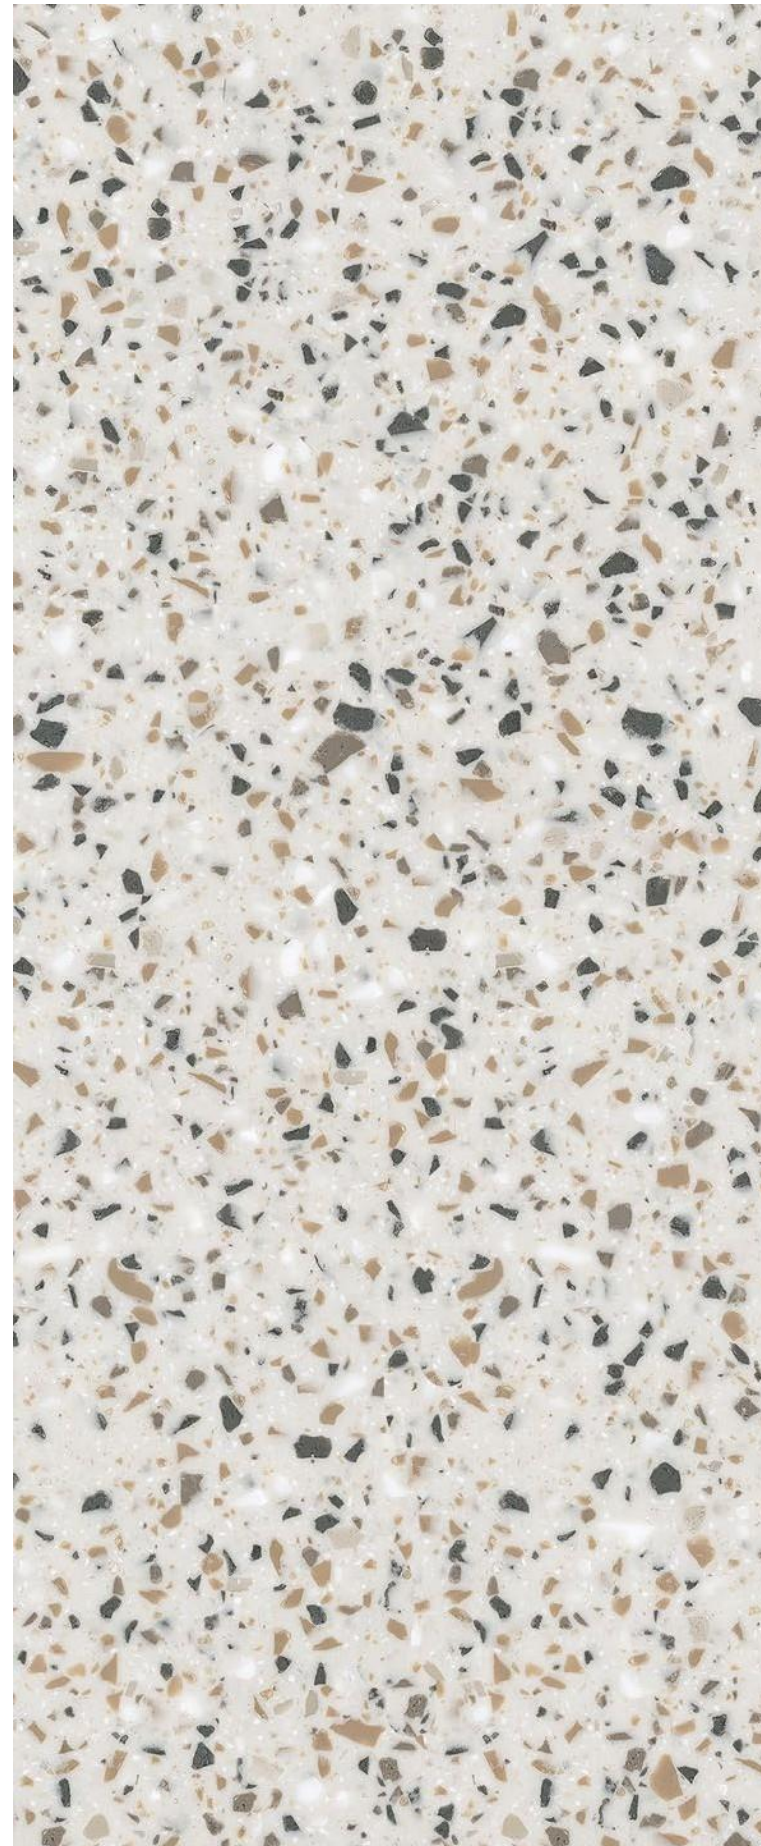

The sample shown is true to scale.

Corian® Solid Surface Laguna Terrazzo (shower walls and vanity), Corian® Solid Surface Laguna (wall behind vanity), and Corian® Solid Surface Glacier White (integrated sinks)

These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

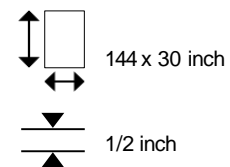

# PREMIUM INTERIOR

## PEPPERED

An exciting aesthetic with black, gray, and tan particulates that elevate the look of the neutral colors. Peppered Terrazzo traverses classic and contemporary design styles.

The sample shown is true to scale.

Corian® Solid Surface Peppered Terrazzo (bench and column) and Corian® Solid Surface Provence Nuwood (bench base and back wall)

 These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

## NEW AESTHETICS

The new colors of Corian® Solid Surface are more than beautiful aesthetics. They embody a surface that removes the limit between design dreams and design realities. With the ability to heat and mold the surface into new shapes, drill and cut into the surface to display beautiful designs, backlight, and dye-sub-print, endless design capabilities are permitted. If you can dream it, you can create it with Corian® Solid Surface.

### INSPIRED BY NATURE'S CANVAS

SEAMLESS

HYGIENIC & EASY TO CLEAN

REPAIRABLE & RENEWABLE

DESIGN FREEDOM

AESTHETICALLY STRIKING

SUSTAINABLE

These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 10%, or 14%.

## CARBON AGGREGATE

Dynamic and authoritative, with a dusky gray color inspired by Carbon Concrete, Carbon Aggregate intensifies its rich aesthetic with dimension and movement. It asserts a profound color statement with its dark hue and flowing background, all enhanced with fragments that add to the visual strength of the design. Carbon Aggregate creates a powerful and substantial look to enrich commercial and residential environments, whether used as a single statement or combined with other aesthetics.

Two-toned kitchen interior with custom-designed Corian® sink, backsplash in Corian® Quartz (BiancoMarmor color); countertops in Corian® Solid Surface (Carbon Aggregate color) with side panels in Corian® Solid Surface (Carbon Concrete color).

# PREMIUM INTERIOR

## ASH AGGREGATE

The light gray hue and monochromatic movement of Ash Aggregate is enhanced with scattered particles that create a robust visual presence. Ash Aggregate is self-assured with a design that can stand on its own, or allow another element to take center stage. It is a deliberate neutral color statement that becomes a statement beyond its neutrality.

Industrial chic eatery decorated with monolithic serving station block in Corian®Solid Surface (Ash Aggregate color) with basetrims in Corian®Solid Surface (Carbon Concrete color); serving station tabletops in Corian®Solid Surface (Neutral Aggregate color).

## PEBBLE TERRAZZO

Defining a modern industrial look, Pebble Terrazzo's muted colors and diverse patterning unite to suggest an easy transition of style. The subtle background of gray is given a catalyst of vitality with the angular white particles embedded throughout its surface. Equally adept at enhancing contemporary spaces, as well as traditional looks, Pebble Terrazzo is introduced as a modern classic.

Kitchen countertops and side panels in Corian® Solid Surface (Pebble Terrazzo color) evoke a midcentury atmosphere.

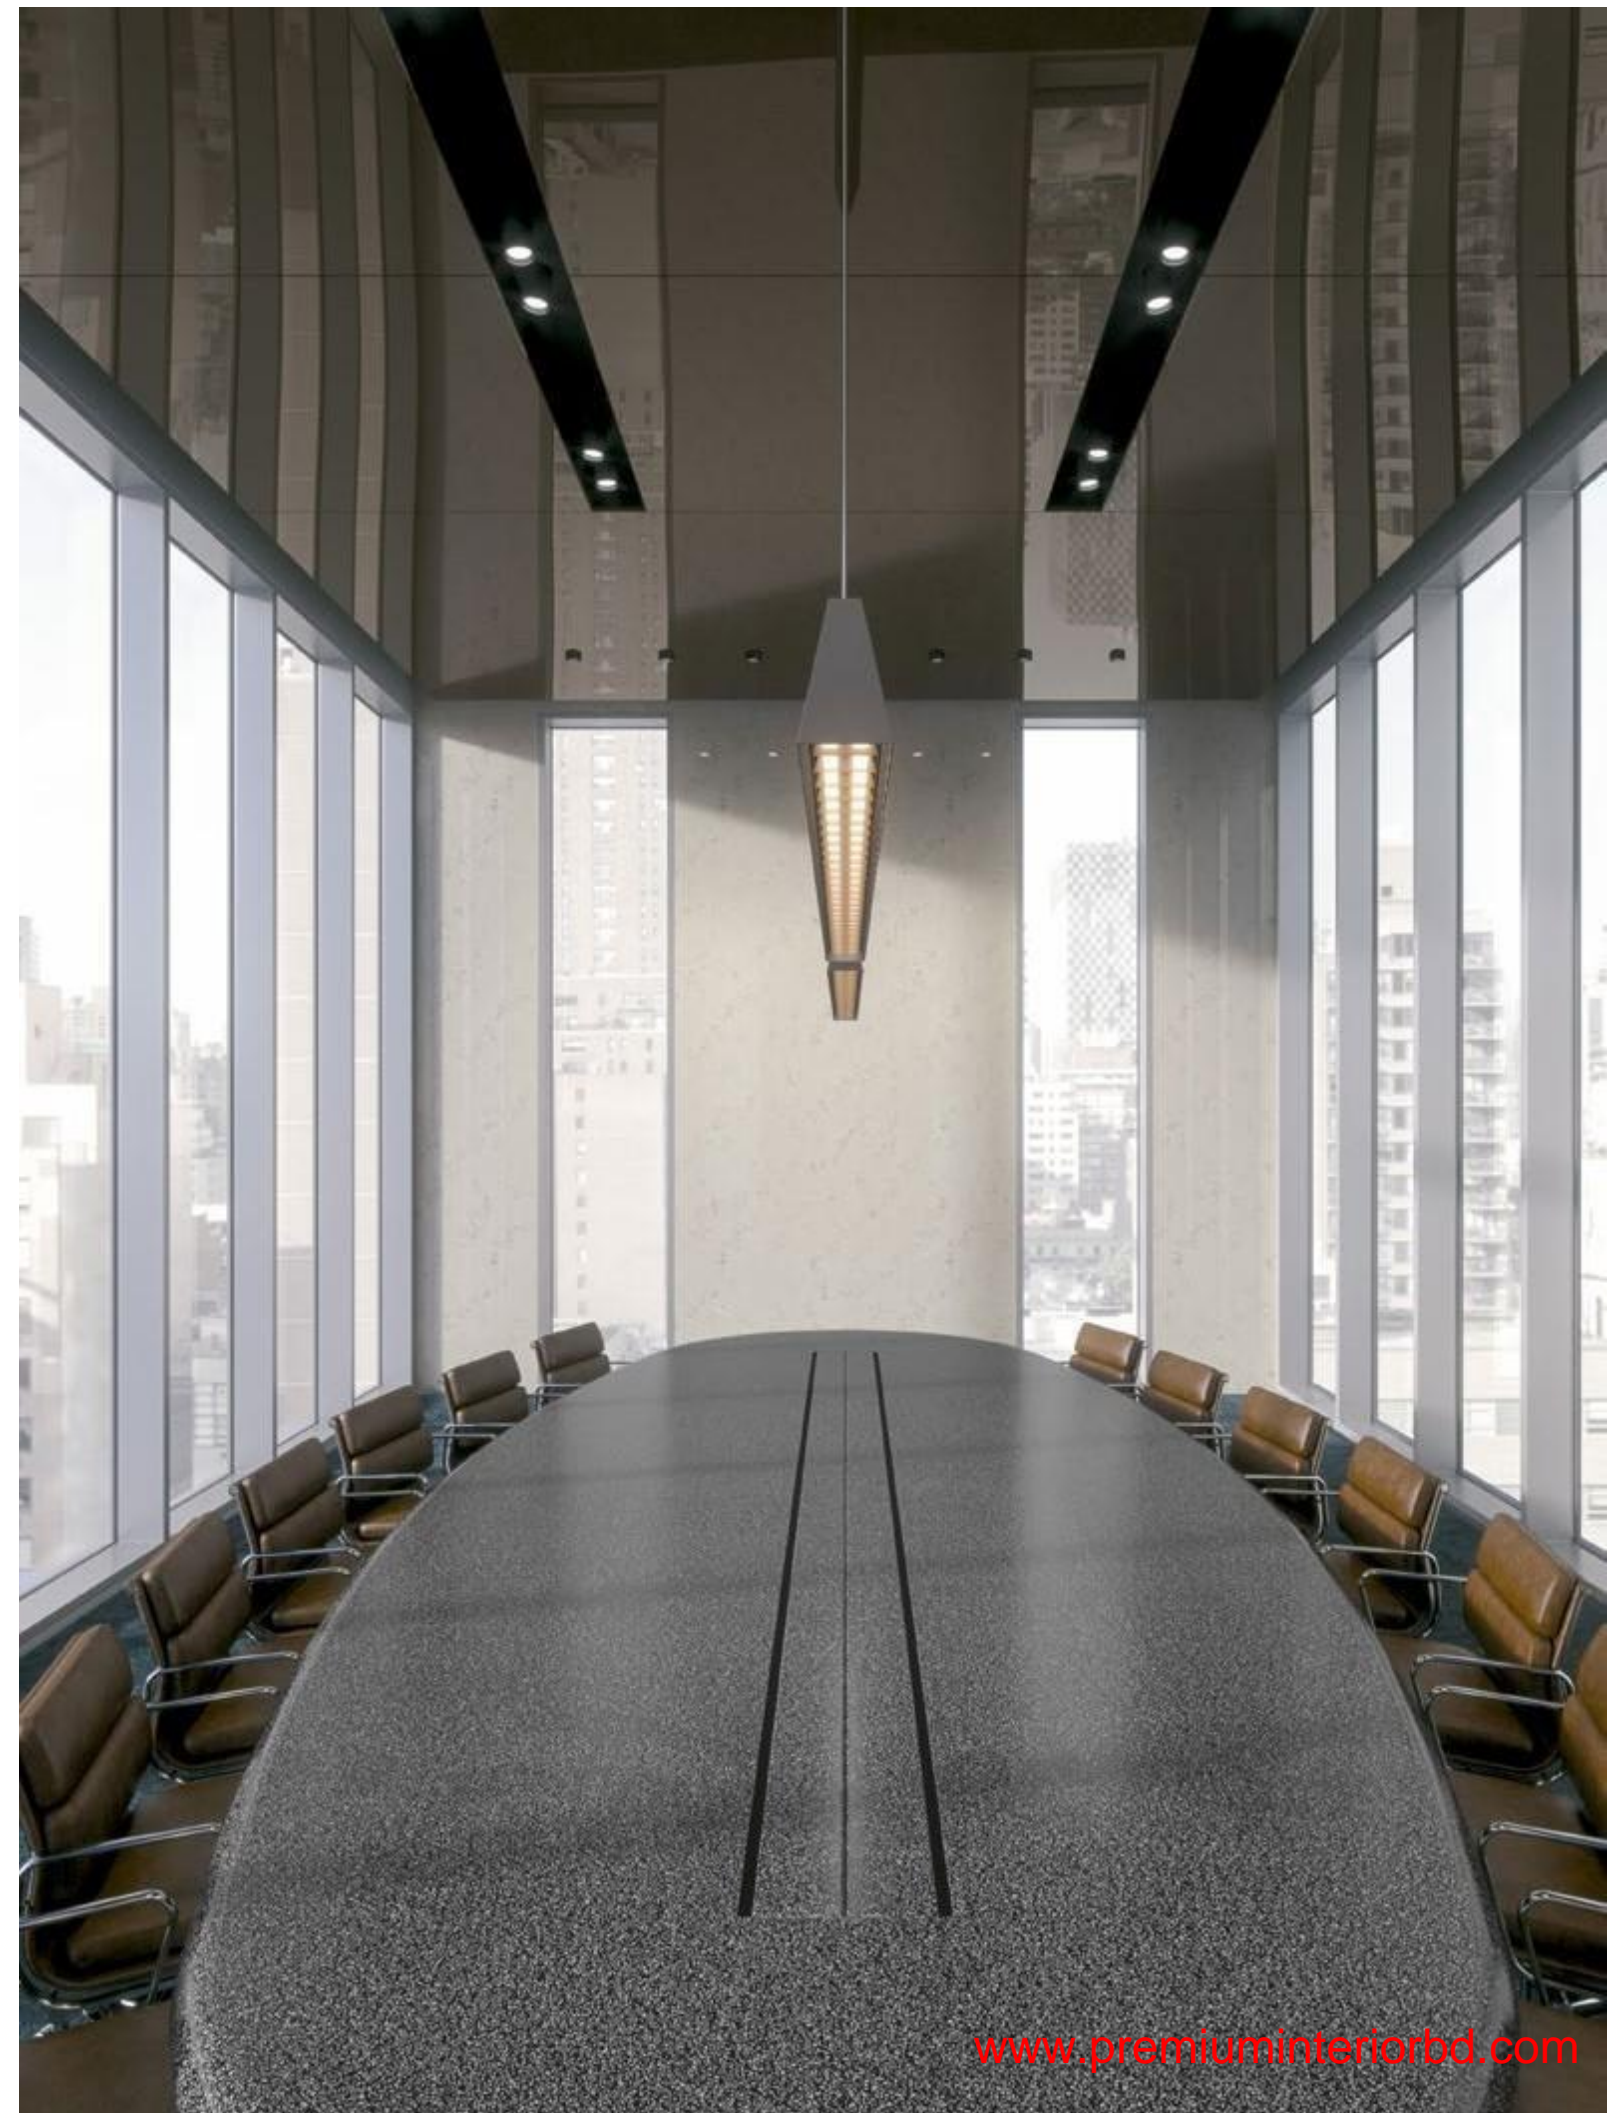

# PREMIUM INTERIOR

## BASALT TERRAZZO

Basalt Terrazzo infuses dark, formal aesthetics with an invigorating contrast. The design's black ground is scattered with gray and white chips that remain true to its midcentury modern roots, but advance the look to a thoroughly modern allure. Desired for its modern design, Basalt Terrazzo can easily transition to more traditional looks and is a welcome aesthetic in the boardroom as well as the bedroom.

Elongated corporate boardroom tabletop in Corian® Solid Surface (Basalt Terrazzocolor); a trio of wall panels at one end of conferenceroom in Corian® Quartz (Ashen Graycolor).

# PREMIUM INTERIOR

## SILVER LINEAR

With deft strokes, Silver Linear defines clean, modern aesthetics with an array of gray hues streaming through its white background.

The color contrast offers a sharp, dynamic approach to its design and creates a stylish look with vertical or horizontal applications. "Classically modern" describes the look which is a new alternative for traditional and contemporary design. Silver Linear delivers continuous movement and color that celebrates design with a new aesthetic energy.

Hotel suite bathroom with wall and countertop in Corian® Solid Surface (Silver Linear color) featuring a pair of Corian® vanities; open shelving beneath basins in Corian® Solid Surface (Ash Aggregate color).

# PREMIUM INTERIOR

## BEECH NUWOOD

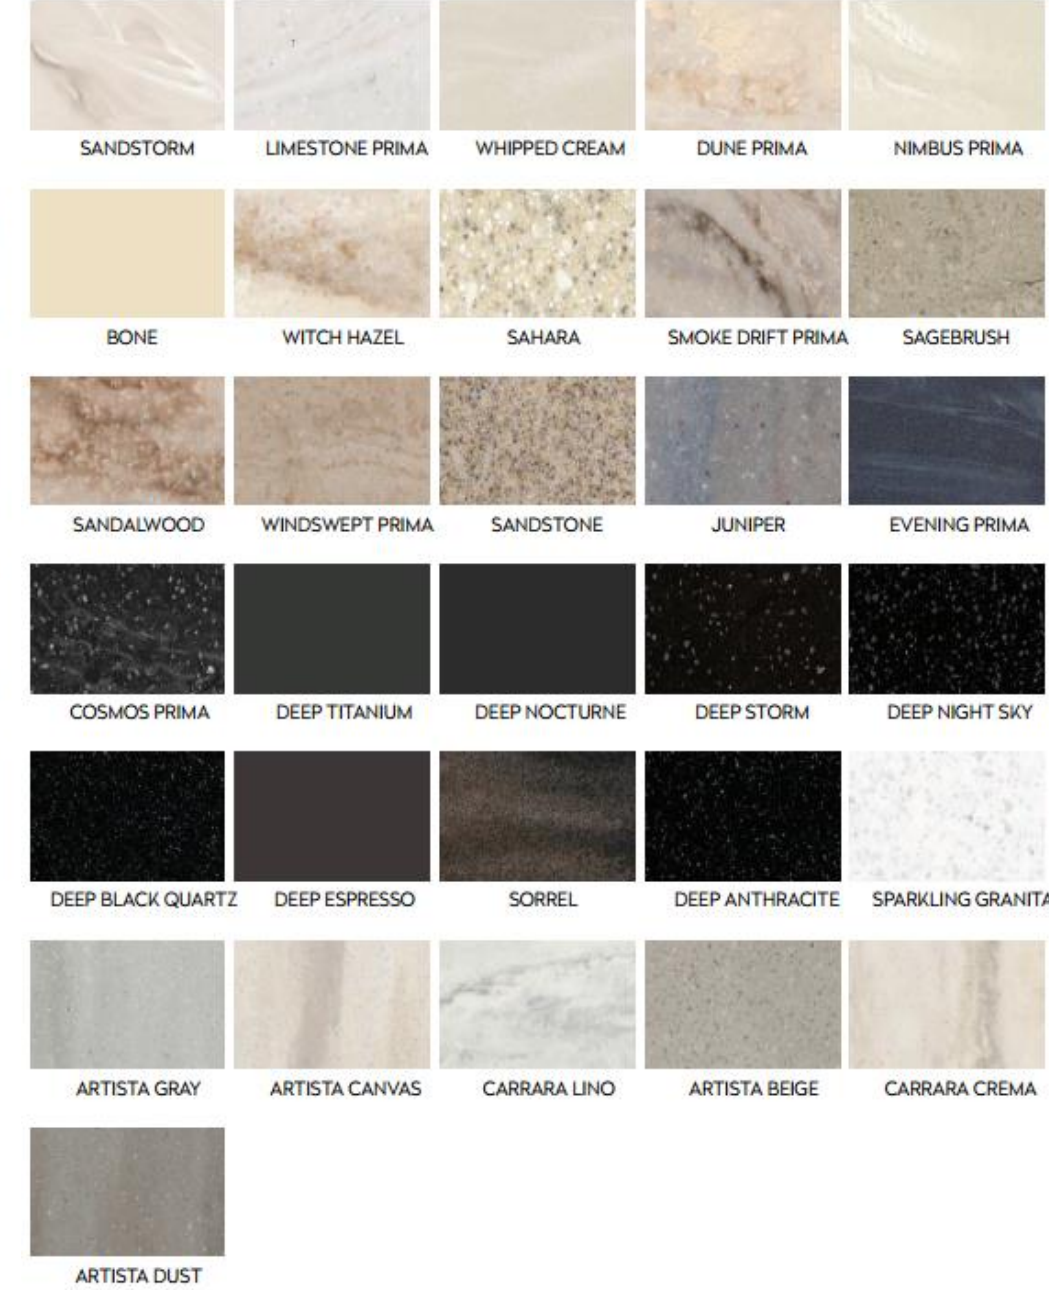

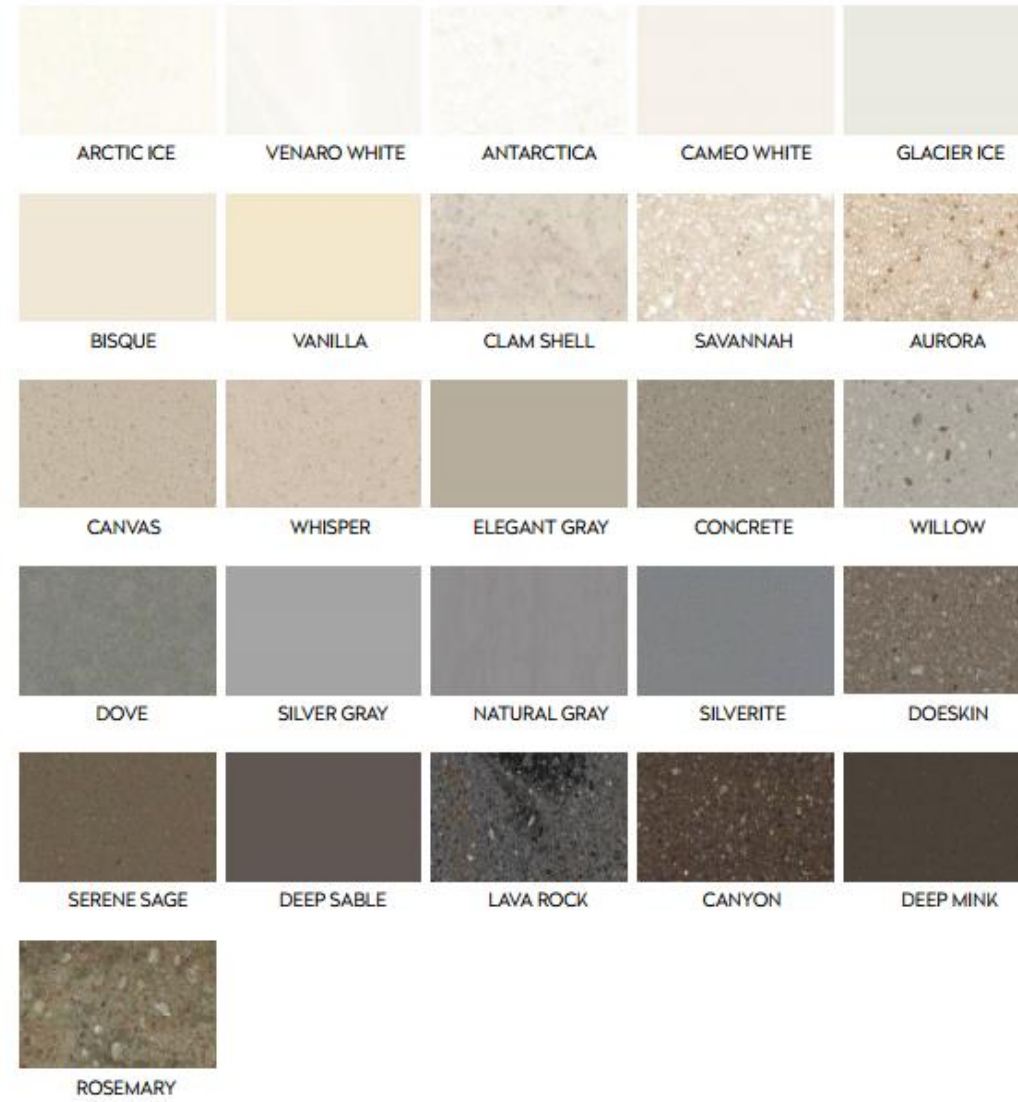

Light and clean, innovative Beech Nuwood appears sunwashed with an aesthetic that is natural and refreshing. The pale beige coloring and natural graining mimic the beauty of natural beech wood and create a design suggestive of relaxation and ease. Beech Nuwood's aesthetic, inspired by natural wood's characteristics, comprises subtle movement and gentle color to create an easygoing style.

Master bathroom with shower walls in Corian®Solid Surface (Beech Nuwood color); bathtub (below) with border outfitted in Corian®Solid Surface (Mahogany Nuwood color).

## CORIAN® SOLID SURFACE COLOR PORTFOLIO

These colors have been certified by SCS Global Services to have one of three minimum levels of pre-consumer recycled material: 6%, 13%, or 20%.

# 01. S-Soft Stone

## Application space:

indoor and outdoor walls, ceilings can be used, high-altitude buildings, special-shaped shapes, private homes and commercial space background wall

Flexible stone is an ultra-thin decorative material combining natural stone and polymers. With authentic stone patterns and bendable/cuttable features, it enables revolutionary easy installation beyond traditional stone limitations.

## INTRODUCTION

**Product name:** S-Soft Stone

### Product features:

#### 1. Authentic Stone Texture:

Preserves natural stone veins with realistic touch, each piece is unique

#### 2. Ultra-Thin & Flexible:

1-3mm thickness bendable (R=5cm) for curved surfaces

#### 3. Extreme Lightweight:

Only 1.5kg/m<sup>2</sup>, 1/10 weight of natural stone, reduces structural load

#### 4. Eco-Friendly & Non-Toxic:

Zero formaldehyde/VOC, SGS certified, safe for children's rooms

#### 5. Installation Revolution:

Directly adhesive-bondable / bendable / cuttable

# 02. Ultra thin stone

Ultra-thin flexible natural stone. Ultra thin stone veneer material composed of 100% natural stone surface and backboard. The texture is strong, flexibility is good and good decorative effect with light transmission for certain series available. Light weight, easy to install and transportation.

## INTRODUCTION

**Product Name:** P Ultra Thin Stone

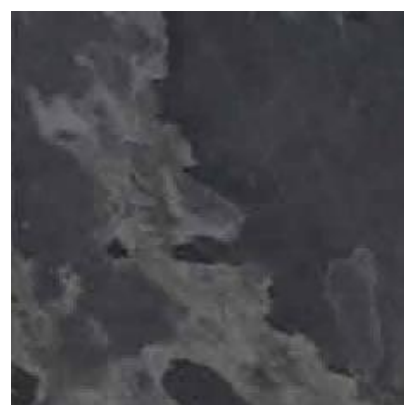

### Product Features:

1. Genuine Stone Essence:  
100% natural stone slices with intact geological veins and crystalline luster
2. Extreme Thin & Light:  
Just 1-2mm thick (1/10 of traditional stone), weight  $\leq 1.6\text{kg/m}^2$
3. Installation Breakthrough:  
Adhesive installation (no steel framework), 80% faster construction
4. Eco-Conscious:  $1\text{m}^2$  stone block produces  $20\text{m}^2$  ultra-thin sheets

Application:  
Indoor & outdoor, ceiling and furniture.

Application Examples

# 05 ■ FRP Cement Board

Application:  
Facades、Factories、 Architectural Décor

FRP material is composed of glass fibre, resin, stone powder and other composite materials, through rubbing, mould opening, sizing, moulding, colouring, forming and other processes, to form a highly creative decorative performance effect. FRP products: toughness is better than cement products, can do 45° radian.

FRP Cement-Cast Panels –  
Light as Steel, Strong as Rock, Built to Last!  
Size:1200\*3200mm

## INTRODUCTION

**Product Name:** FRP cement board

### Product Features :

1. Ultra-high strength: Impact-resistant, load-bearing, and bend-proof.
2. Corrosion-proof:  
Resists chemicals, moisture, and rust for harsh environments.
3. Lightweight: 1/3 the weight of concrete, reducing structural stress.
4. Fire-resistant: Class A fire rating for safety compliance.
5. Customizable: Moldable for complex shapes and textured finishes.

# 06 ■ Jade Glass

Jade Glass combines the beauty of natural jade with modern craftsmanship. Its smooth texture and unique patterns provide soft translucency, adding elegant artistry to any space. Perfect for feature walls, partitions, and counters—blending aesthetics with functionality.

## INTRODUCTION

**Product Name:** Jade Glass

### Product Features:

1. Rare Jade Veining: Authentically replicates Hetian jade/jadeite textures
2. Light-Transmitting Privacy:  
40-70% light transmission with soft diffusion(5-20mm thickness)
3. Premium Hardness:  
Mohs 6.5-7.2 hardness, 3x more scratch-resistant than regular glass  
Lightweight & Safe: 1/5 weight of solid jade, tempered for safety
4. Cross-Industry Application:  
For facades/luxury furniture/art installations/showcases

Application:  
Residential Decoration, Architectural Projects.

# 07 Crystal Tile

Crystal Brick, crafted from high-transparency materials, shines like natural crystal. Balancing light transmission and privacy, it creates dreamy light effects—ideal for partitions, walls, and art decor, adding a luminous touch to modern designs.

## INTRODUCTION

**Product Name:** Crystal Tile

### **Product Features:**

1. Artistic Optical Effects: Custom facet cutting creates prismatic light effects
2. Modular Design: limitless configurations
3. Fireproof & Weatherproof: A1 fire rating, stable from -30°C~120°C
4. Eco-Material: 100% recyclable mineral materials, heavy-metal free

Application:  
Residential Decoration, Architectural Projects.

# 08 ■ Acrylic Plate

Acrylic is a high-performance transparent plastic with glass-like clarity (92% light transmittance) while being lighter and more impact-resistant than glass. Dubbed the "Queen of Plastics", it is widely used in advertising signage, architectural decoration, home design, and more, supporting versatile processing like cutting, engraving, and thermoforming.

## INTRODUCTION

**Product Name: Acrylic Plate**

### Product Features:

1. Crystal-like Clarity: 92% light transmittance, superior to regular glass
2. Lightweight & Impact-resistant:  
50% lighter than glass, 10x more impact-resistant
3. Excellent Weather Resistance:  
10-year outdoor use without yellowing, UV-8 rating
4. Color Variety: 200+ color options in transparent/translucent/opaque

Application:  
Architectural Decoration, Furniture & Design, Commercial Use

Application:  
Used for indoor and outdoor wall decoration

Cement Decorative Board, crafted from natural cement with minimalist design, balances raw texture and refined touch. Fireproof, moisture-resistant, and highly durable—ideal for walls, furniture, and art installations, perfect for industrial or wabi-sabi style spaces.

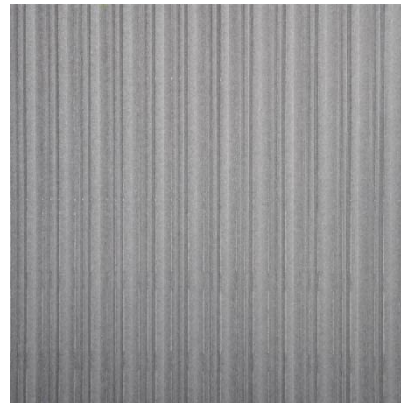

## INTRODUCTION

**Product Name:** Cement Decorative Panel

### Product Features:

1. **High Durability:** Fireproof, moisture-resistant, and corrosion-proof, ideal for high-humidity environments
2. **Lightweight Design:** 60% lighter than traditional concrete, reducing transportation and installation costs.
3. **Eco-Friendly & Safe:** Zero VOC emissions, some products contain recycled materials (LEED-compliant).
4. **Versatile Applications:** Can be cut and drilled for walls, ceilings, custom furniture, and more.

# 11. PU Veneer

Application:  
building exterior wall or interior partial decoration.

PU veneer with superior quality. The product is light and durable, heat insulation and low water absorption, easy to process and install. The product is energy saving and environmental protection, B1 fire prevention, heat insulation, moisture and anti corrosion. PU material is light, strong. Convenient for construction, high installation efficiency.

## INTRODUCTION

**Product Name:** PU Veneer

### **Product Features:**

1. **Lightweight & High Strength:** Low density yet excellent load-bearing capacity, more durable than traditional materials
  2. **Easy Installation:**  
Cuttable/glueable/paintable, adaptable to various installation methods
- Extreme Weather Resistance:** UV-resistant, withstands extreme temperatures (-40°C~90°C), 10+ years outdoor lifespan

# 12. Stainless Steel Sheet

Application:  
Curtain walls, interior/exterior walls

Stainless steel sheets are metal plates rolled from stainless steel, featuring excellent corrosion resistance, high strength, and an aesthetically pleasing surface. Widely used in architectural decoration, industrial equipment, kitchenware manufacturing, and more, they are essential materials for modern engineering and design.

Unbreakable, Naturally Beautiful – Stainless Steel Sheets, the Perfect Blend of Quality and Aesthetics!  
Size: 1215\*2425mm

## INTRODUCTION

**Product Name:** Stainless steel sheets

### Product Features:

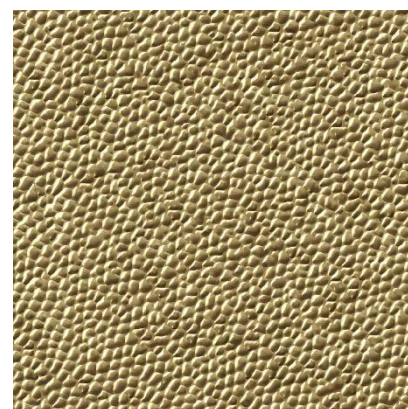

1. Superior Corrosion Resistance:  
Chromium-nickel alloy resists acid/ alkali/ salt corrosion, ideal for harsh environments
2. Extreme Temperature Resistance:  
Withstands -200°C~800°C without deformation
3. Aesthetic & Durable:  
Mirror/brushed/sandblasted finishes, maintains permanent luster

# 13. Aluminum Foam

Application:  
Building curtain wall or interior wall decorative  
Materials, ceilings, outdoor decoration

Aluminium foam is a new type of material with a lightweight, porous structure that is made by introducing a gas or blowing agent into a molten aluminium alloy. Aluminium foam has a range of unique properties that have led to its use in a wide variety of applications.

## INTRODUCTION

**Product Name:** aluminum foam

### Product Features:

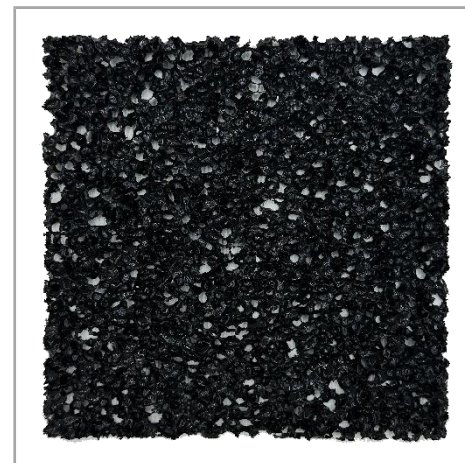

1. Energy Absorption & Damping: Unique porous structure absorbs 90% impact energy with excellent damping
2. Fireproof & Heat Resistant:  
Melting point 660°C, certified Class A fireproof
3. Eco-Friendly & Recyclable: 100% recyclable aluminum material, no harmful emissions

Application Examples

# 14. Translucent Cement

Transparent cement is a solid product processed. It is made of cement, aggregates, stones, sand, steel bars, etc., added with optical fibers, and finally formed into a solid board or brick shaped finished product. If there are special requirements, the shape and light source style can also be customized.

## INTRODUCTION

**Product Name:** Translucent Cement

### Product advantage:

1. Lotus leaf effect:  
Pervious to light concrete surface using Germany imported paint, paste the active ingredients can penetrate into cement base surface of wool stoma.
2. Self-compacting high flow state
3. High flexural strength

Application:  
Building Facades & Curtain Walls, Interior Decoration & Partitions,  
Flooring & Staircase Design, Art Installations & Landscaping

# 15. Foamed Ceramics

Foamed ceramics is made of ceramic tailings, ceramic fragments, river silt and ceramic solid waste as the main raw materials. It is a closed cell ceramic material with high porosity and high temperature roasting by foaming technology. Foamed ceramics have the advantages of light weight, pressure resistance, environmental protection, easy cutting and carving, and are widely used for indoor and outdoor wall decoration, partition and so on.

## INTRODUCTION

**Product Name:** Foamd Ceramics

### Product features:

1. Excellent Fireproof:  
Class A1 non-combustible, ≥3h fire resistance (100mm thickness)
2. Water & Moisture Proof:  
Closed-cell rate ≥95%, dimensionally stable in water
3. Weather Resistance: Withstands -50°C~800°C cycling, 50+ year lifespan
4. Eco-Friendly: 80% industrial waste materials, 100% recyclable

Application:  
Used for indoor and outdoor wall decoration, partition and so on.

# 16. ■ 3D Cement Brick

Application:  
Walls, Translucent partitions

3D cement brick is made of concrete UHPC cement as cementing material, sand and stone as aggregate, and is formed in the mould after mixing. After drying and demoulding, cement bricks are formed. 3D cement brick surface is delicate, three-dimensional feeling is super, a variety of colour styles, widely used in indoor background wall, milk tea shop door, club and so on.

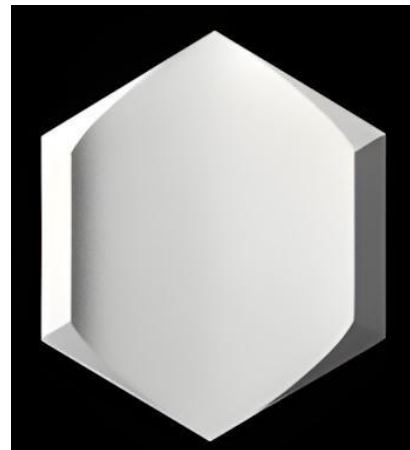

## INTRODUCTION

**Product Name:** 3D Cement Brick

### **Product Features:**

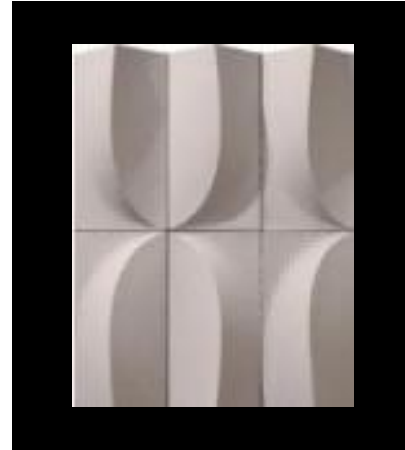

1. Modular Design: Standard 200×200mm units enable unlimited patterns
2. Quick Installation: Patented clip system triples installation speed
3. 3D Relief Effect:  
5-15mm embossed depth creates dynamic light/shadow effects

3D Cement Bricks Redefine Spatial Art!

# 17. ■ Electroplating Brick

Electroplated tiles are metal plated on the surface of natural stone, using electrolytic process to deposit metal or alloy on the surface of the stone to form a metal plating. Highly polished, giving a metallic luster.

Increase the strength of the stone, improve the wear resistance of the product. Handmade, pieces are different.

Electroplated Brilliance –  
Where Innovation Meets Infrastructure!

## INTRODUCTION

**Product Name:** Electroplating Brick

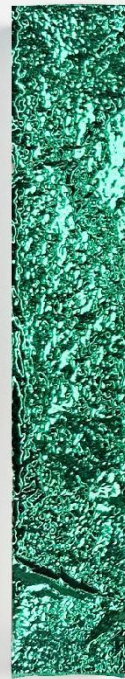

**Product features: :**

1. Mirror Metallic Finish: Nanoscale electroplating achieves 98% reflectivity
2. Extreme Wear Resistance: 5x more scratch-resistant
3. Anti-Fingerprint: Special oleophobic coating reduces fingerprints by 90%

Application:  
Walls, Translucent partitions

# 18. Stone Mosaic

Application:  
Indoor & outdoor, ceiling and furniture.

Stone Mosaic is a decorative material made by cutting natural stone into small pieces and assembling them into patterns. It features natural textures and unique aesthetics, ideal for walls, floors, and feature walls, adding a touch of luxury, vintage, or modern style to any space.

## INTRODUCTION

**Product Name:** Stone Mosaic

### Product Features:

1. **Natural Texture:** Each piece retains the stone's original grain and color, making every mosaic unique.
2. **High Durability:** Resistant to pressure, wear, and corrosion, suitable for both indoor and outdoor use.
3. **Design Flexibility:** Customizable colors, patterns, and layouts for personalized decor.
4. **Eco-Friendly & Safe:** Free from artificial harmful substances, non-toxic, and odorless.

Diamond Mosaic is a premium decorative material made of high-refraction crystals or glass diamonds, featuring dazzling sparkle, durability, and moisture resistance. Ideal for feature walls, furniture accents, and commercial spaces, it offers customizable designs and easy installation, adding luxury and artistry to any project.

## INTRODUCTION

**Product Name:** Diamond Mosaic

### **Product features: :**

1. Dazzling Diamond Brilliance:

AB facet cutting with 1.8+ refractive index (close to natural diamond)

2. 3D Light Interaction:

Prism structure creates dynamic rainbow reflections

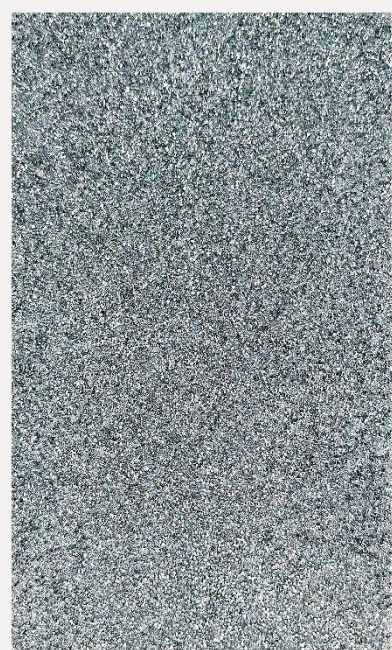

3. Zero-Cut Design:

Standard modules fit common dimensions without cutting

# 20. Shell Mosaic

COLLECTION

Application:  
Walls, Translucent partitions

Made of natural shells, it has a unique luster and beauty by cutting, polishing, splicing and other processes to bring out the natural texture and colour of the shells.

## INTRODUCTION

**Product Name:** Shell Mosaic

### **Product features: :**

1. Environmental friendliness: Shells are natural materials, do not contain harmful chemicals, and the production process will not cause pollution to the environment.
  2. Durability: Shell itself has a certain strength and corrosion resistance, after processing, its surface is smooth, easy to clean, not easy to discolour.
- Elegant and beautiful: The natural colour and texture of shells are varied, reflecting light with a unique luster, bringing a natural and elegant temperament to the space.

# 21. Metal Mosaic

Application:  
Indoor wall, Building facade, Decoration, Commercial space

Metal mosaic is a kind of decorative material made by stitching small pieces of metal material together, which has a unique luster and texture, and can bring a modern and artistic atmosphere to the space.

## INTRODUCTION

**Product Name:** Metal Mosaic

### Product features:

1. Modern & Luxurious: Metallic sheen adds a sleek, avant-garde look, perfect for luxury or industrial styles.
2. Durable & Corrosion-Resistant: Made of stainless steel, aluminum, or copper, resistant to rust and oxidation.
3. Fireproof & Waterproof: Non-combustible and moisture-proof, ideal for kitchens, bathrooms, and high-humidity areas.
4. Highly Customizable: Can be cut into various shapes (square, hexagon, wave, etc.) for unique designs.

# 22. ■ Solid Wood Mosaic

Application:  
Walls, Translucent partitions

Wood mosaic is crafted by cutting and assembling natural wood pieces, preserving the wood's original grain and warm texture. The delicate arrangement creates unique patterns that bring natural, warm decorative effects to spaces, suitable for various applications like walls, floors, and furniture surfaces.

## INTRODUCTION

**Product Name:** Solid Wood Mosaic

### **Product features: :**

1. Natural & Eco-friendly:  
100% solid wood, formaldehyde-free, safe and healthy.
2. Warm Texture: Natural wood grain and touch create a cozy atmosphere.
3. Durable & Stable: Dried and anti-corrosion treated for better deformation resistance and moisture-proof performance.
4. Design Flexibility: Customizable with various woods (walnut, oak, teak, etc.) and pattern designs.

# Ultra-Clear Mirror Board

Application:  
Facades, Factories, Architectural Decor

Ultra-clear Mirror Panel is a high-gloss, high-reflectivity decorative board with a smooth, mirror-like surface. It is widely used in high-end commercial spaces, home décor, and artistic designs, creating a modern and luxurious visual effect.

## INTRODUCTION

**Product Name:** Ultra-Clear Mirror Board

### **Product Features :**

1. Ultra-high reflectivity: Crystal-clear imaging without distortion.
2. Eco-friendly: Lead-free manufacturing, meets international standards.
3. Lightweight & easy to install: Can be cut and adhered directly.
4. Versatile: Enhances spatial depth with lighting designs.

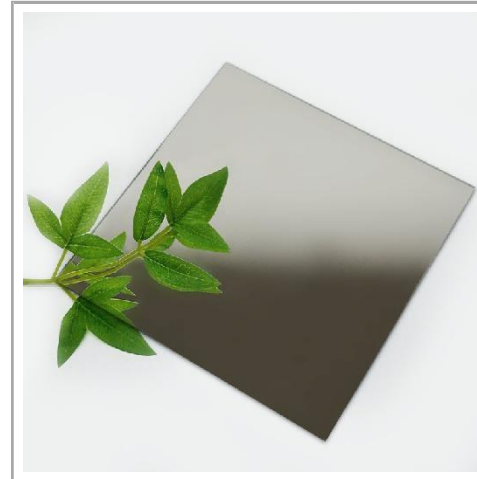

**Material & Craft :** Made from high-purity glass substrate with silver coating and multi-layer protective films, polished to precision.

# 24 ■ Plastic Rattan

Application:  
Home Accessories, Landscape Decoration,  
Commercial Spaces

Plastic Rattan is an innovative eco-friendly synthetic vine material crafted from high-grade polymers. It authentically replicates the texture and appearance of natural rattan while offering superior weather resistance and malleability, making it perfect for outdoor furniture and decorative applications.

## INTRODUCTION

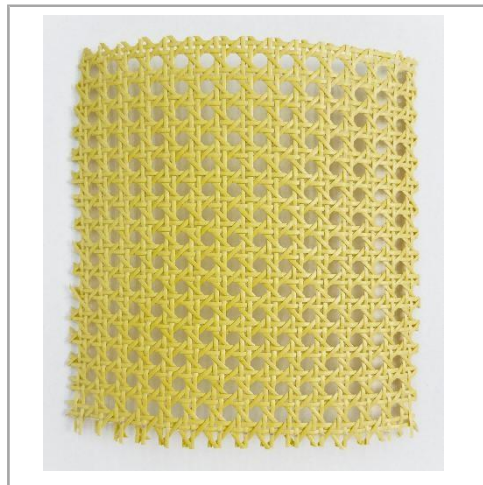

**Product Name:** Plastic Rattan

### Product Features :

1. Weather-resistant: UV-proof, mold-resistant, stable from -30°C to 80°C
2. Eco-friendly: 100% recyclable, heavy-metal free
3. High fidelity: Perfectly mimics natural rattan texture
4. Easy maintenance: Refresh with water rinse

**Material & Craft :** Made from high-purity glass substrate with silver coating and multi-layer protective films, polished to precision.
